

Be Smart! Sign up for KAMMCO Patient Alerts TODAY!

OneHealth New Jersey is pleased to offer KAMMCO Patient Alerts. KAMMCO Patient Alerts provides physicians and care coordinators with timely notifications regarding high risk patients when they are hospitalized or discharged from the hospital.

Prompt delivery of such critical information for a defined panel of high risk patients can help:

- Improve patient health outcomes
- Improve patient satisfaction and continuity of care
- Improve patient safety
- Facilitate patient follow up with their primary care provider
- Lower the overall cost of care for high risk patients by reducing avoidable readmissions

KAMMCO Patient Alerts is an important tool which will support physicians in their transition to merit-based incentive programs and alternative payment models.

Call us TODAY at 844.424.4369 or visit us online at www.OneHealthNewJersey.com.

*Fees for KAMMCO Patient Alerts include an initial setup/implementation fee followed by an annual fee based upon number of patients included in patient panel.
In partnership with the Medical Society of New Jersey*
